

**Department of Toxic Substances Control
Project Status Update
For
Wyle Laboratories Norco Facility Site
September 17, 2004**

SITE INVESTIGATION/CLEANUP DOCUMENTS

- DTSC received signed access agreements from some residents where sampling will be conducted. Access agreements signed by residents are needed to authorize Wyle's Contractors to collect samples on private properties. Field work will commence after agreements are received.
- DTSC is preparing a Sampling and Analysis Plan to sample a private groundwater well near Wyle (southwestern corner of Hillside Avenue and Third Street).

INVESTIGATION/CLEANUP FIELD WORK

- DTSC project team is planning a meeting with Wyle to finalize sampling locations proposed in the draft remedial investigation workplan. DTSC staff requested modification of the sampling locations and/or requested additional location/analysis as necessary.

PUBLIC PARTICIPATION:

- DTSC staff attended the Norco City Council Meeting on September 15, 2004, and updated the Council on the Wyle project status. DTSC staff presented information pertaining to the upcoming offsite sampling near Wyle's northwestern and western boundary and responded to council members' questions. In response to the Council's request, DTSC staff attends the monthly Council meetings to update the council on Wyle project status
- DTSC briefed Norco High School principal John Johnson on the Wyle investigation and cleanup, and discussed the proposed sampling at Norco High School.
